## OTHER SKILLS

- Ability to learn and use new technologies quickly,
- Solution-oriented approach to problems,
- Continuous learning-focused work,
- Good communication skills

## ABOUT ME

I am a dedicated Frontend Developer with a strong background in web development, specializing in React. My journey started with database programming in high school and continued through my Computer Engineering degree. Throughout my career, I have worked on projects mainly in the tourism and transportation industries, building high-performance and user-friendly web applications.
With expertise in JavaScript, TypeScript, GraphQL, and REST APIs, I focus on creating scalable and efficient applications. I actively implement Agile methodologies, ensuring effective collaboration and structured workflows.

## EXPERIENCE

**FRONTEND DEV (INTERNSHIP)**

Softalya Software Inc.
Feb 2022 - May 2022
Antalya

Contributed to a project developing solutions for the tourism sector as a Frontend Developer Intern. Focused on building responsive and scalable UIs.
Technologies Used:
- JavaScript, Vue, Vuex
- Bootstrap, Sass
- GraphQL, Apollo

**FRONTEND DEV (FULL TIME)**

Softalya Software Inc.
May 2022
Antalya

Developed scalable and user-friendly web applications for the tourism and transportation industry. Worked in an Agile environment, applying Scrum methodologies to improve workflows and collaboration.
Technologies Used:
- TypeScript, React, Redux
- Tailwind CSS, MUI, PrimeReact
- GraphQL, Apollo
- Agile, Scrum

## TECHNICAL SKILLS

- Proficient in developing dynamic web applications using TypeScript, JavaScript, React, Vue, GraphQL, and REST technologies.
- Experienced with global state management using tools like Redux and Vuex.
- Knowledge of HTML5, CSS3, and web design principles.
- Skilled in developing responsive web applications using CSS frameworks such as Tailwind CSS, Bootstrap.
- Proficient in Agile and Scrum methodologies, with experience working in cross-functional teams.
- Experienced with Version Control Systems (VCS), including Git and GitHub.
- Knowledgeable in using UI component libraries like MUI, Element UI, and PrimeReact.
- Ability to develop performance-oriented web applications with focus on optimization and scalability.
